## **Junior .NET Developers**

We are looking for ambitious .NET Developers to join and enhance our existing team. You will be working on Web Applications using ASP.NET, VB.NET, C#.NET and SQL Server. Many opportunities to grow and learn new technologies and practices are also part of your job which ensures your continued growth.

### **Primary job tasks:**

- Develop .NET Components using ASP.NET and VB.NET / C#

### **Experience in the following is plus:**

- UML Design
- Unit Testing
- MS SQL Server

Microsoft Certification in development is a plus.
